are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

Birds Argentina Uruguay Field Guide

First published in 1987, this is a brief, concise identification guide covering all of Argentina, Uruguay, and the Falkland Islands. There are 975 species illustrated, with 3-4 on each page. The majority of the birds are illustrated with multiple views (e.g., perched vs. flying; dorsal vs. ventral) and
