History is fundamentally the study of the past, and can be either scientific (archaeology) or humanistic (history through language). Although the ending date of ancient history is disputed, some Western scholars use the fall of the Western Roman Empire in 476 AD (the most used), the closure of the Platonic Academy in 529 AD, the death of the emperor Justinian I in 565 AD, the coming of Islam, or the rise of Charlemagne as the end of ancient and Classical European history. Outside of Europe ...

History | Ancient Origins

The history of ancient Egypt can be divided into a series of stable kingdoms separated by periods of relative instability known as intermediate periods: The Old Kingdom of the Early Bronze Age, the Middle Kingdom of the Middle Bronze Age and the New Kingdom of the Late Bronze Age.

The 10 Oldest Ancient Civilizations That Have Ever Existed

The history of ancient Egypt spans the period from the early prehistoric settlements of the northern Nile valley to the Roman conquest of Egypt in 30 BC. The pharaonic period, the period in which Egypt was ruled by a pharaoh, is dated from the 32nd century BC, when Upper and Lower Egypt were unified, until the country fell under Macedonian rule in 332 BC.

Ancient Egypt was a civilization of ancient North Africa, concentrated along the lower reaches of the Nile River, situated in the place that is now the country Egypt. Ancient Egyptian civilization followed prehistoric Egypt and coalesced around 3100 BC (according to conventional Egyptian chronology) [1] with the political unification of Upper and Lower Egypt under Menes (often identified with Narmer). [2]

Ancient History: A Concise Overview of Ancient Egypt, Ancient Greece, and Ancient Rome: Including the Egyptian Mythology, the Byzantine Empire and the Roman Republic by Eric Brown 4.8 out of 5 stars 6

A History of Ancient and Early Medieval India is the most comprehensive textbook yet for undergraduate and postgraduate students. It introduces students to original sources such as ancient texts, artefacts, inscriptions and coins, illustrating how historians construct history on their basis. Its clear and balanced explanation of concepts and historical debates enables students to independently evaluate evidence, arguments and theories. This remarkable textbook allows the reader to visualize and understand the rich and varied remains of India s ancient past, transforming the process of discovering that past into an exciting experience.

Who were the first Britons, and what sort of world did they occupy? In A History of Ancient Britain, much-loved historian Neil Oliver turns a spotlight on the very beginnings of the story of Britain; on the first people to occupy these islands and their battle for survival. There has been human habitation in Britain, regularly interrupted by Ice Ages, for the best part of a million years. The last retreat of the glaciers 12,000 years ago brought a new and warmer age and with it, one of the greatest tsunamis recorded on Earth which struck the north-east of Britain, devastating the population and flooding the low-lying plains of what is now the North Sea. The resulting island became, in time, home to a diverse range of cultures and peoples who have left behind them some of the most extraordinary and enigmatic monuments in the world. Through what is revealed by the artefacts of the past, Neil Oliver weaves the epic story - half a million years of human history up to the departure of the Roman Empire in the Fifth Century AD. It was a period which accounts for more than ninety-nine per cent of humankind's presence on these islands. It is the real story of Britain and of her people.

Translated by Henrik Rosenmeier, A History of Ancient Philosophy charts the origins and development of ancient philosophical thought. For easy reference, the book is divided chronologically into six main parts. The sections are further divided into philosophers and philosophical movements: *Pre-Socratic Philosophy, including mythology, the Pythagoreans and Parmenides *The Great Century of Athens, including the Sophists and Socrates *Plato, including The Republic, The Symposium and The Timaeus *Aristotle, including The Physics, The Metaphysics and The Poetics *Hellenistic Philosophy, including the Sceptics, the Stoics, the Epicureans and Cicero *Late Antiquity, including Neoplatonism, Origen and St Augustine. This comprehensive and meticulously documented book is structured to make ancient philosophical thought and ancient thinkers accessible. It contains: *full references to primary sources *detailed interpretations of key philosophical passages, including surveys of previous philosophical readings *an overview of the development of ancient philosophical thought *discussions of the relationships between philosophers and their ideas *analyses of key philosophical concepts and ideologies including ontology, epistemology, logic, semantics, moral and political philosophy, theology and aesthetics *explanations of Greek philosophical terminology.

Comprehensive, authoritative but highly accessible reference work essential for all those interested in the history of Greek.

This 1897 textbook traces the progress of geographical writing from Homeric times to the end of Rome's western empire.

Ancient History: A Concise Overview of Ancient Egypt, Ancient Greece, and Ancient Rome: Including the Egyptian Mythology, the Byzantine Empire and the Roman Republic by Eric Brown 4.8 out of 5 stars 6

Explore the entire history of the ancient Egyptian state from 3000 B.C. to 400 A.D. with this authoritative volume The newly revised Second Edition of A History of Ancient Egypt delivers an up-to-date survey of ancient Egypt's history from its origins to the Roman Empire's banning of hieroglyphics in the fourth century A.D. The book covers developments in all aspects of Egypt's history and their historical sources, considering the social and economic life and the rich culture of ancient Egypt. Freshly updated to take into account recent discoveries, the book makes the latest scholarship accessible to a wide audience, including introductory undergraduate students. A History of Ancient Egypt outlines major political and cultural events and places Egypt's history within its regional context and detailing interactions with western Asia and Africa. Each period of history receives equal attention and a discussion of the problems scholars face in its study. The book offers a foundation for all students interested in Egyptian culture by providing coverage of topics like: A thorough introduction to the formation of the Egyptian state between the years of 3400 B.C. and 2686 B.C. An exploration of the end of the Old Kingdom and First Intermediate period, from 2345 B.C. to 2055 B.C. An analysis of the Second Intermediate Period and the Hyksos between 1700 B.C. and 1550 B.C. A discussion of Greek and Roman Egypt between 332 B.C. and A.D. 395. Perfect for students of introductory courses in ancient Egyptian history and as background material for students of courses in Egyptian art, archaeology, and culture, A History of Ancient Egypt will also earn a place in the libraries of students taking surveys of the ancient world and those seeking a companion volume to A History of the Ancient Near East.

New York Times Bestseller A New York Times Notable Book Named one of the Best Books of the Year by the Wall Street Journal, the Economist, Foreign Affairs, and Kirkus Reviews Finalist for the National Book Critics Circle Award (Nonfiction) Shortlisted for the Cundill Prize in Historical Literature Finalist for the Los Angeles Times Book Prize (History) A San Francisco Chronicle Holiday Gift Guide Selection A New York Times Book Review Editors ' Choice Selection A sweeping, "magisterial" history of the Roman Empire from one of our foremost classicists shows why Rome remains "relevant to people many centuries later" (Atlantic). In SPQR, an instant classic, Mary Beard narrates the history of Rome "with passion and without technical jargon" and demonstrates how "a slightly shabby Iron Age village" rose to become the "undisputed hegemon of the Mediterranean" (Wall Street Journal). Hailed by critics as animating "the grand sweep and the intimate details that bring the distant past vividly to life" (Economist) in a way that makes "your hair stand on end" (Christian Science Monitor) and spanning nearly a thousand years of history, this "highly informative, highly readable" (Dallas Morning News) work examines not just how we think of ancient Rome but challenges the comfortable historical perspectives that have existed for centuries. With its nuanced attention to class, democratic struggles, and the lives of entire groups of people omitted from the historical narrative for centuries, SPQR will to shape our view of Roman history for decades to come.

The definitive guide to the history of ancient Israel. The History of Ancient Israel covers the epic story of Jewish civilisation from its beginnings to the destruction of Jerusalem, and the Temple in AD 70. It deals with Israel's relations with the great empires which shaped its development and with the changing internal structure of the Jewish state, drawing both on excavation and the Hebrew Bible.

An innovative approach to the history of the First Persian Empire, offering an accessible historical narrative for students and general readers alike A History of the Achaemenid Empire considers archaeological and written sources to provide an expansive, source-based introduction to the diverse and culturally rich world of ancient Achaemenid Persia. Assuming no prior background, this accessible textbook follows the dynastic line from the establishment and expansion of the empire under the early Achaemenid kings to its collapse in 330 BCE. The text integrates the latest research, key primary sources, and archaeological data to offer readers deep insights into the empire, its kings, and its people. Chronologically organized chapters contain written, archaeological, and visual sources that highlight key learning points, stimulate discussion, and encourage readers to evaluate specific pieces of evidence. Throughout the text, author Maria Brosius emphasizes the necessity to critically assess Greek sources—highlighting how their narrative of Achaemenid political historyoften depicted stereotypical images of the Persians rather than historical reality. Topics include the establishment of empire under Cyrus the Great, Greek-Persian relations, the creation of a Persian ruling class, the bureaucracy and operation of the empire, Persian diplomacy and foreign policy, and the reign of Darius III. This innovative textbook: Offers a unique approach to Achaemenid history, considering both archaeological and literary sources Places primary Persian and Near Eastern sources in their cultural, political, and historical context Examines material rarely covered in non-specialist texts, such as royal inscriptions, Aramaic documents, and recent archaeological finds Features a comprehensive introduction to Achaemenid geography, Greek historiography, and modern scholarship on the Persian War Part of the acclaimed Blackwell History of the Ancient Worldseries, A History of the Achaemenid Empire is a perfect primary textbook for courses in Ancient History, Near Eastern Studies, and Classical Civilizations, as well as an invaluable resource for general readers with interest in the history of empires, particularly the first Persian empire or Iranian civilization.
