To test and fix, check out our Small Engine Ignition Systems FAQ or reach out to your local Briggs & Stratton dealer for advanced repair help. Step 4: Check the Valves & Compression System Air-fuel compression is crucial to engines powering lawn mowers and outdoor power equipment.

## ~~Troubleshooting small engine problems | Briggs & Stratton~~

Fuel, fire and air are the main components for operation of any combustion engine. When troubleshooting a Briggs & Stratton engine, the same holds true. Fuel must reach the combustion chamber for the engine to fire. Fire is created by the spark of the spark plug which is generated by a magnet on the flywheel.

## ~~How to Troubleshoot a Briggs & Stratton Engine | Hunker~~

The two common problems when troubleshooting a Briggs & Stratton lawn mower are that the engine doesn't run, or the mower doesn't cut. If the engine doesn't run, there are either one of two things wrong, no fuel is getting into the cylinder to be ignited, or there is no spark to ignite the fuel once it is in the cylinder. If it doesn't cut, there is something amiss with either the blade or the ...

Most outboard motors will be troublesome at some point in their lives, but armed with the right knowledge a skipper needn't worry. The Reeds Outboard Motor Troubleshooting Handbook is a compact, pocket-sized guide to finding solutions to all of the most common outboard problems, and many of the less common ones too. The perfect format for quick reference on board, this book will help skippers fix troublesome outboards themselves, or enable the skipper to do an emergency patch-up for a more serious problem until they can get back to port. Each topic addresses a particular problem, and gives clear step by step instructions with helpful colour photographs and diagrams showing exactly what to do. Straightforward and accessible, the Reeds Outboard Motor Troubleshooting Handbook should be an essential part of any skipper's DIY toolkit - and perfect for slipping in the pocket.

Provides guidance on repairing the ignition, carburetors, fuel systems, rewind starters, electrical systems, and other parts of small gas engines
