- Never use the television if it is damaged in any way.
- Always place the television on a fl at level surface avoiding anywhere which may be subject to strong vibration.
- Ensure the television is not placed on top of the power cable as the weight of the television may damage the cable and cause a safety hazard.

In this book version of the official report presented to First Lady Laura Bush, the reader will find the same contents that were included in the actual report. This report marks the first-ever time that such an undertaking was performed for the nation's first lady. The report -- designed as a service to assist Mrs. Bush in meeting the demands of her new role -- contains advice for the first lady and her senior staff as well as information on the history, challenges, and duties associated with the Office of the First Lady. The contributors include the former first ladies, public officials, and leading historians of the first ladyship. The Office of the First Lady is arguably the most intriguing and demanding 'unpaid job' in the country. The president's wife is in the unique position to wield significant power and influence as she presides over White House social affairs and important social projects, while serving as the president's most trusted confidante and one of the country's most celebrated women.

As the U.S. enters the last lap of the 2008 presidential election season, the media and the candidates are in full gear exploiting each other, often at the expense of public information and awareness. This book looks at how presidents and presidential candidates use television, the Internet, and newspapers to promote their policies and themselves, even as they are sometimes manipulated by the media they so avidly seek. Looking at White House media strategies relating to the Iraq War and occupation, health care reform, tax and budget debates, the debate over Bush's competence, the Clinton-Lewinsky sex scandal, and the early battles of the 2008 presidential election, media scholar and former journalist Stephen Farnsworth examines how presidents shift the direction and limit the amount of public debate over policies to favor themselves-and how reporters and Internet commentators often help them do so. The result short-circuits the public's role in evaluating competing visions for the country's future and the legislative branch's role in policy making. The modern presidential obsession with public relations-and media willingness to be used to advance executive power- undermine the country's long term ability to deal with crucial problems, including foreign and military relations, a growing government debt, and public health care shortcomings.

Douglas Kellner's *Media Spectacle and the Crisis of Democracy: 9/11, the War on Iraq, and Election 2004* investigates the role of the media in the momentous political events of the past four years. Beginning with the role of the media in contested election of 2000, Kellner examines how corporate media ownership and concentration, linked with a rightward shift of establishment media, have disadvantaged the Democrats and benefited George W. Bush and the Republicans. Exploring the role of media spectacle in the 9/11 attacks and

subsequent Terror War in Afghanistan and Iraq, Kellner documents the centrality of media politics in advancing foreign policy agendas and militarism. Building on his analysis in *Media Spectacle* (Routledge 2003), Kellner demonstrates in detail how conflicting political forces ranging from Al Qaeda to the Bush administration construct media spectacles to advance their politics. Two chapters critically engage the role of the media in the buildup to the Iraq war and the media-centric nature of Bush's Iraq invasion and occupation. Final chapters delineate the role of the media in the highly contested and significant 2004 election campaign that many believe to be one of the key political struggles of the contemporary era. Criticizing Bush's unilateralism, Kellner argues for a multilateral and cosmopolitan globalization and the need for democratic media to help overcome the current crisis of democracy in the United States.

How to deal with brutal questions in front of an audience.

Growing up in a small mining town in New South Wales, Australia, during World War II, Beverley Keegan knew that she wanted to become a nurse. Her adventures began when she traveled on an overnight train to the big city of Sydney to commence her nursing training. Once she became a nurse, her working life continued for more than fifty years in various locations in Australia, New Guinea, and the Red Centre around Alice Springs. "Television, Bedpans, and Me" tells the true story of the many adventures she encountered as she traveled around Australia during her nursing career. Her story follows the amazing growth of medicine from basic nursing in the fifties to the electronic age of today. At the same time, the advent of television followed her as she moved from state to state and from Sydney to the Australian Outback. This memoir shares the journey taken by one woman, including humorous tales, pathos, and ordinary family occurrences that colour all of our lives, while tracing the development of the miracles of modern medicine. In "Television, Bedpans, and Me," Keegan lovingly recounts her experiences as a registered nurse and recalls the people she has nursed and worked with for over half a century.

Based on extensive research from both Australia and Britain, this book is a comprehensive history of the Australian Light Horse in war and peace, from its antecedents in the middle of the 19th century until the disbandment of the last regiment in 1944.
