This accessible text enables criminology and criminal justice students to understand and critically evaluate criminal law in the context of criminal justice and wider social issues. The book explains criminal law comprehensively, covering both general principles and specific types of criminal offences. It examines criminal law in its social context, as well as considering how it is used by the criminal justice processes and agencies which enforce it in practice. Covering all the different theoretical approaches that the student of criminology and criminal justice will need to understand, the book provides learning tools such as: -chapter objectives - making the structure of the book easy to follow for students -questions for discussion and student exercises - helping students to think critically about the ideas and concepts in each chapter, and to undertake further independent and reflective study -'definition boxes' explaining key concepts - helping students who are not familiar with specialist criminal law terminology to understand what the key basic concepts in criminal law really mean in practice -a companion Website which incorporates a range of resources for lecturers and students.

Over the past ten years, the study of environmental harm and ' crimes against nature ' has become an increasingly popular area of research amongst criminologists. This book represents the first international, comprehensive and introductory text for green criminology, offering a concise exposition of theory and concepts and providing extensive geographical coverage, diversity and depth to the many issues pertaining to environmental harm and crime. Divided into three sections, the book draws on a range of international case studies and examples, and looks at the conceptual and methodological foundations of green criminology, before examining in detail areas of environmental crime and harm, and how they are addressed, including: climate change and social conflict; abuse and harm to animals; threats to bio-diversity; pollution and toxic waste; environmental victims; environmental regulation, law enforcement and courts; environmental forensic studies; environmental crime prevention. Green Criminology is packed with pedagogical features, including dialogue boxes, case examples, discussion questions and lists of further reading and is perfect for students around the world engaged with green criminology and crime against the environment.

"This is one of the best texts I have seen in a while...It makes the world of criminology less daunting and more relevant." —Allyson S. Maida, St. John ' s University Introduction to Criminology, Tenth Edition, is a comprehensive introduction to the study of criminology, focusing on the vital core areas of the field—theory, method, and criminal behavior. With more attention to crime typologies than most introductory texts, Hagan and Daigle investigate all forms of criminal activity, such as organized crime, white collar crime, political crime, and environmental crime. The methods of operation, the effects on society and policy decisions, and the connection between theory and criminal behavior are all explained in a clear, accessible manner. This book provides a comprehensive, up to date and detailed introduction to the criminal justice system for students and practitioners needing to know about this. It assesses the main theories concerned with the causes of crime (including white collar and corporate crime), and provides a detailed account and analysis of the response of the state to crime in England and Wales. It discusses the operation of all key agencies, including the police, probation and prison services, and the legal and youth justice systems. It also examines a number of contemporary issues affecting the criminal justice system, including the partnership approach to crime prevention, the implementation of the Macpherson report and the issue of race and crime more generally; and examines a number of important new areas within criminal justice, such as restorative justice. The book is an ideal text for students taking courses in criminal justice, or studying criminal justice as a component of a broader course in criminology or the social sciences more generally. It has a wide range of student friendly features, including questions and answers, case studies, chapter summaries, website resource guide, glossary of key terms, and is written in a highly accessible manner.
