Expanded and completely rewritten with information on grow rooms, greenhouses and outdoor growing, medicinal cannabis, security, lighting, fertilisers, hydroponics, Sea of Green, seeds, seedlings, vegetative growth, mother plants, cloning, flowering, harvesting and curing, diseases, pests and hash making. More than 1100 full colour photos and drawings illustrate every detail and numerous simple cultivation solutions make for easy appeal to novice growers. Readers will learn how to achieve the highest, most potent yields, even with limited space and budget.

The book entitled "Objective Horticulture" has arisen from the fact that there is no objective type book covering all disciplines of horticulture (Fruit Science, Vegetable Science and Floriculture) as per revised syllabus prescribed by the ICAR. The book has been divided into 5 main sections viz; Section-I: Horticulture-Fruit Science Section-II: Horticulture-Vegetable Science Section-III: Horticulture-Floriculture Section-IV: Important terms used in horticulture Section-V: Miscellaneous. This book will help all and serve as a comprehensive guide to those who want to prepare for competitive examinations like M.Sc. and Ph.D admission in Agricultural/Horticultural Universities, ICAR Institutes and other competitive examinations viz; ARS, SRF, JRF, Civil Services held at National and State level services. It is earnestly hoped that the students of Horticulture (fruit science, vegetable science and floriculture and post harvest technology) will find this book quite useful and prove beneficial to its readers.

Presents a guide to cultivating an efficient and beautiful vegetable garden, from growing seedlings to preventing diseases, and provides twenty-four different plans for optimum crop yield.

For over a decade, Lauren Springer and Rob Proctor have been good friends and garden writing colleagues. In *Passionate Gardening*, readers will be entertained, informed, and inspired by the pair's practical wisdom, wit, and tales of perseverance. Gardeners who live in challenging climates where extremes of temperatures, wind, and more are the norm. Garden success depends on on the most appropriate plant selections, the best gardening techniques, and maximizing the seasons. Every subject the authors tackle?from early snows to slugs, from bulbs to botanical Latin?urges readers to make the most of the gardens they tend. *Passionate Gardener* takes the gardener through the season in a most comprehensive, yet pleasurable and accessible way, as the authors celebrate a diversity of plants for every site and every season. The champion sound, ecologically friendly gardening techniques, from soil and water issues to pest management. They also offer up stories of their horticultural adventures as their personal gardens have evolved, making this lively, information-packed reading with a personal, real touch. Hailed by critics and fellow garden writers as among the top American garden writers of today, Lauren and Rob have translated their shared passion for gardening into gardens that thrive beautifully and into a new book that will raise the spirits, expectations, and results of all those who read it. With its mixture of sparkling essays and lush photographs, *Passionate Gardening* is an indispensable guide for both budding and seasoned gardeners.
