As the European Union (EU) launches its common currency (the Euro), Central European (CE) nations are searching for best practices in public liability management in order to smooth their integration into the EU. This work addresses that concern, examining borrowing policies, institution building, portfolio optimization, and the implications of the Euro and EU accession for public debt management. To help the CE countries achieve their goals, the World Bank and the European Commission held a two-day seminar in Brussels in mid-December 1997. European Union Accession presents the papers delivered at that seminar which was attended by all ten EU applicant countries: Bulgaria, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, the Slovak Republic, and Slovenia. The workshop pursued the following goals: 1. to investigate the implications of the launch of the Euro and of the EU accession on fiscal prudence and on the borrowing strategies of CE countries; 2. to facilitate the dissemination of the best public liabilities management techniques developed worldwide; and 3. to explore plausible arrangements to promote prudent public liabilities management in Central Europe through a regional expertise network.

Some secrets are dangerous. This Secret is deadly. For Secret McQueen, her life feels like the punch line for a terrible joke. Abandoned at birth by her werewolf mother, hired as a teen by the vampire council of New York City to kill rogues, Secret is a part of both worlds, but belongs to neither. At twenty-two, she has carved out as close to a normal life as a bounty hunter can. When an enemy from her past returns with her death on his mind, she is forced to call on every ounce of her mixed heritage to save herself-and everyone else in the city she calls home. As if the fate of the world wasn't enough to deal with, there's Lucas Rain, King of the East Coast werewolves, who seems to believe he and Secret are fated to be together. Too bad Secret also feels a connection with Desmond, Lucas's second-in-command... Warning: This book contains a sarcastic, kick-ass bounty hunter; a metaphysical love triangle with two sexy werewolves; a demanding vampire council; and a spicy seasoning of sex and violence.

This book contains the lectures of a Great Master, offering the highest spiritual growth and understanding. Macdonald-Bayne himself describes how he became aware of sublime power, a consciousness far above his own. For the many people called to hear his lectures, it was an experience never to be forgotten.

The ideal course companion, Elements of Physical Chemistry is written specifically with the needs of undergraduate students in mind, and provides extensive mathematical and pedagogical support while remaining concise and accessible. For the seventh edition of this much-loved text, the material has been reorganized into short Topics, which are grouped into thematic Focuses to make the text more digestible for students, and more flexible for lecturers to teach from. At the beginning of each Topic, three questions are posed, emphasizing why it is important, what the key idea is, and what the student should already know. Throughout the text, equations are clearly labeled and annotated, and detailed 'justification' boxes are provided to help students understand the crucial mathematics which underpins physical chemistry. Furthermore, Chemist's toolkits provide succinct reminders of key mathematical techniques exactly where they are needed in the text. Frequent worked examples, in addition to self-test questions and end-of-chapter exercises, help students to gain confidence and experience in solving problems. This diverse suite of pedagogical features, alongside an appealing design and layout, make Elements of Physical Chemistry the ideal course text for those studying this core branch of chemistry for the first time.

Written in a G tonality with an abundance of accidentals, this elementary piece also includes mixed articulations. The rhythm is a challenge, and there are several hand position changes. The boogie sound creates a fun showpiece.
