provided in individual sentences, and mixed tenses are tested through unique and entertaining, long-form prose exercises.

The English Tenses Exercise Book drills a solid understanding of the past, present and future in simple, continuous and perfect forms. With thousands of examples of each tense, practising both form and use, this is a perfect companion to reference books and language classes. Each tense is tested separately to help you perfect them, before being brought together in mixed tense exercises that compare and contrast use. Exercises include individual gap-fill sentences, scrambled sentences, reading for information, usage analysis, and error correction, as well as longer prose exercises that

level and above, this book introduces the reader to flexible uses of the English tenses, with simple, easy-to-follow explanations and colourful examples. This guide explains the theory behind the grammar of the different aspects of English, as well as the many ways native English speakers adapt the rules. It covers simple, continuous, perfect and perfect continuous forms in the past, present and future, explaining their uses for showing time, emphasis and other purposes. Also covered are the specific applications of bare infinitives, participles and time clauses. Phil Williams, tutor and author of the website "English Lessons Brighton," takes the reader from the past, to present to future, in a friendly, readable style - carefully comparing the tenses along the way.

A Self-Study Grammar Book for Engineers és un llibre d'autoaprenentatge de la llengua anglesa en l'àmbit de les carreres tècniques i, d'una manera especial, per a l'alumnat universitari dins el camp de les enginyeries. Està dividit en tres mòduls ben diferenciats per a facilitar la seva utilització i ordenar les unitats a estudiar en funció de les necessitats específiques de l'alumne en cada moment. En un primer mòdul s'han inclòs 31 unitats de gramàtica i documents específics amb explicacions i exemples bilingües (en català i en castellà), així com exercicis complementaris i les seves solucions respectives. El segon mòdul conté un total de 13 unitats bàsiques, relacionades amb l'anglès per a
