MYTHS OF LIGHT: EASTERN METAPHORS OF THE ETERNAL is another welcome addition in the Collected Works of Joseph Campbell from New World Library. The book is probably not the ideal starting point for someone new to Campbell's writings--for that, readers might want to try *The Power of Myth* or *The Hero With a Thousand Faces*--but it is an excellent companion to those other works.

In *Myths of Light: Eastern Metaphors of the Eternal*, Campbell explores, with his characteristic clarity and humor, the principle that underlies all the great religions of India and East Asia, from Jainism and Hinduism to Buddhism and Taoism: the transcendent World Soul.

Master mythologist Joseph Campbell had a genius for finding the unifying symbols and metaphors in apparently distinct cultures and traditions. In *Myths of Light: Eastern Metaphors of the Eternal*, Campbell explores, with his characteristic clarity and humor, the principle that underlies all the great religions of India and East Asia, from Jainism and Hinduism to Buddhism and Taoism: the transcendent World Soul. Joseph Campbell began his comparative study of the world's religions with a chance meeting with the renowned Indian theosophist Jeddou Krishnamurti on a trans-Atlantic steamer. Though Campbell was deeply fascinated by mythologies and religions from every continent, Asia's potent mix of theologies captured his imagination more than any other, and offered him paths to understanding the essence of myth. In *Myths of Light*, Campbell explores the core philosophies and mythologies of the East, comparing them through vivid examples and stories to each other and to those of the West. A worthy companion to *Thou Art That* and to Campbell's *Asian Journals*, this volume conveys complex insights through warm, accessible storytelling, revealing the intricacies and secrets of his subject with his typical enthusiasm.

Thou Art That is a compilation of previously uncollected essays and lectures by Joseph Campbell that focus on the Judeo-Christian tradition. Campbell explores common religious symbols, reexamining and reinterpreting them in the context of his remarkable knowledge of world mythology. Campbell believed that society often confuses the literal and metaphorical interpretations of religious stories and symbols. In this collection, he eloquently reestablishes these symbols as a means to enhance spiritual understanding and mystical revelation. With characteristic verve, he ranges from rich storytelling to insightful comparative scholarship. Included is editor Eugene Kennedy's classic interview with Campbell in the *New York Times Magazine*, which originally brought the scholar to the attention of the public.

Baksheesh & Brahman illustrates Campbell's working method and grants an illuminating look at the thoughts and experiences of an incredible mind, as well as a revealing portrait of the roiling Indian subcontinent of fifty years ago."--BOOK JACKET.

Dorey's research shows the African Dogon religion to be the oldest mythology in the world. It existed in Africa long before humans migrated to other areas. Dorey has found fragments of the Dogon religion all over the world. The Nummo, the title of the book, refers to alien beings who were considered immortal by the Dogon people. According to the Dogon, these fish and serpent like beings came to Earth from the stars. When they died and were reborn they could remember their previous existence. The Dogon elder Ogotemmêli described life and death for the amphibious Nummo as being like a snake shedding its skin. According to the Dogon, in the beginning of human existence immortality was the norm and time, as we know it, was irrelevant. This book is vital in the search for the truth about human origins.

Joseph Campbell's collected writings on dance and art, edited and introduced by Nancy Allison, CMA, the founder of Jean Erdman Dance, and including Campbell's unpublished manuscript "Mythology and Form in the Performing and Visual Arts," the book he was working on when he died. Dance was one of mythologist Joseph Campbell's wide-ranging passions. His wife, Jean Erdman, was a leading figure in modern dance who worked with Martha Graham and had Merce Cunningham in her first company. When Campbell retired from teaching in 1972, he and Erdman formed the Theater of the Open Eye, where for nearly fifteen years they presented a wide array of dance and theater productions, lectures, and performance pieces. *The Ecstasy of Being* brings together seven of Campbell's previously uncollected articles on dance, along with "Mythology and Form in the Performing and Visual Arts," the treatise that he was working on when he died, published here for the first time. In this new collection Campbell explores the rise of modern art and dance in the twentieth century; delves into the work and philosophy of Isadora Duncan, Martha Graham, and others; and, as always, probes the idea of art as "the funnel through which spirit is poured into life." This book offers the reader an accessible, yet profound and provocative, insight into Campbell's lifelong fascination with the relationship of myth to aesthetic form and human psychology. Reviews: "Unusual insights . . . with a great deal of new information. [Campbell's] writing reveals deep knowledge of dance and aesthetics, and clarity of thought. There are also excellent notes related to both Parts I and II at the end of the book, and these add to the reader's understanding of the various issues and artists under discussion. Readers will find a great deal to think about in this small collection of Campbell's work, and the book will also serve as an introduction to the thoughts of an important American writer — one who influenced many with his teaching, ideas, and books." — *Journal of Dance Education*

Explore the mysteries of the feminine divine Joseph Campbell brought mythology to a mass audience. His bestselling books, including *The Power of Myth* and *The Hero with a Thousand Faces*, are the rare blockbusters that are also scholarly classics. While Campbell's work reached wide and deep as he covered the world's great mythological traditions, he never wrote a book on goddesses in world mythology. He did, however, have much to say on the subject. Between 1972 and 1986 he gave over twenty lectures and workshops on goddesses, exploring the figures, functions, symbols, and themes of the feminine divine, following them through their transformations across cultures and epochs. In this provocative volume, editor Safron Rossi—a goddess studies scholar, professor of mythology, and curator of collections at Opus Archives, which holds the Joseph Campbell archival manuscript collection and personal library—collects these lectures for the first time. In them, Campbell traces the evolution of the feminine divine from one Great Goddess to many, from Neolithic Old Europe to the Renaissance. He sheds new light on classical motifs and reveals how the feminine divine symbolizes the archetypal energies of transformation, initiation, and inspiration.

A journey from Burning Man to the Akashic Field that suggest how 5-MeO-DMT triggers the human capacity for higher knowledge through direct contact with the zero-point field • Examines Bufo alvarius toad venom, which contains the potent natural psychedelic 5-MeO-DMT, and explores its entheogenic use • Proposes a new connection between the findings of modern physics and the knowledge held by shamans and religious sages for millennia The venom from Bufo alvarius, an unusual toad found in the Sonoran desert, contains 5-MeO-DMT, a potent natural chemical similar in effect to the more common entheogen DMT. The venom can be dried into a powder, which some researchers speculate was used ceremonially by Amerindian shamans. When smoked it prompts an instantaneous break with the physical world that causes out-of-body experiences completely removed from the conventional dimensions of reality. In *Tryptamine Palace*, James Oroc shares his personal experiences with 5-MeODMT, which led to a complete transformation of his understanding

of himself and of the very fabric of reality. Driven to comprehend the transformational properties of this substance, Oroc combined extensive studies of physics and philosophy with the epiphanies he gained from his time at Burning Man. He discovered that ingesting tryptamines unlocked a fundamental human capacity for higher knowledge through direct contact with the zero-point field of modern physics, known to the ancients as the Akashic Field. In the quantum world of nonlocal interactions, the line between the physical and the mental dissolves. 5-MeO-DMT, Oroc argues, can act as a means to awaken the remarkable capacities of the human soul as well as restore experiential mystical spirituality to Western civilization.

A previously unpublished sequel to Baksheesh and Brahman reports on the author's travels through east Asia and his five-month stay in Japan in the 1950s, during which he experienced local culture and witnessed the area's struggles with Cold War tensions and western values. 20,000 first printing.

Joseph Campbell, arguably the greatest mythologist of our time, was certainly one of our greatest storytellers. This new cloth edition of *The Hero's Journey*, published to celebrate the 100th anniversary of Campbell's birth, recounts his own quest and conveys the excitement of his lifelong exploration of our mythic traditions, what he called "the one great story of mankind."
