What were the leaders of the free world really doing during all those meetings? As the editors of Cabinet magazine reveal here for the first time, they were doodling. Our Founding Fathers doodled, and so did Andrew Jackson. Benjamin Harrison accomplished almost nothing during his time in the White House, but he left behind some impressive doodles. During the twentieth century-as the federal bureaucracy grew and the meetings got longer-the Presidential doodle truly came into its own. Theodore Roosevelt doodled animals and children, while Dwight Eisenhower doodled weapons and self-portraits. FDR doodled gunboats, and JFK doodled sailboats. Ronald Reagan doodled cowboys and football players and lots of hearts for Nancy. The nation went wild for Herbert Hoover's doodles: A line of children's clothing was patterned on his geometric designs. Cabinet magazine has spent years scouring archives and libraries across America, unearthing hundreds of Presidential doodles. Here the editors of Cabinet present the finest examples of the genre. Historian David Greenberg sets these images in context and explains what they reveal about the inner lives of our Commanders in Chief. Are Kennedy's dominoes merely squiggles, or do they reflect deeper anxieties about the Cold War? Why did LBJ and his cabinet spend so much time doodling caricatures of one another? Smart, revealing, and hilarious-Presidential Doodles is the ideal gift for anyone interested in politics or history. And for anyone who doodles!

Over 400 memorable quotes: Coolidge's "The chief business of America is business," Carter's "Whatever starts in California unfortunately has an inclination to spread," Bush's "Read my lips: no new taxes," many more.

Describes how President Theodore Roosevelt, on a camping trip with naturalist John Muir in Yosemite National Park, decided to support conservation, setting aside new national parks to preserve wilderness lands for future generations.

Humor and innovative engagement can bring new life, commitment and energy to groups that are losing their steam. We all remember childhood fun in creating visual representations of thoughts and ideas, as children we were all experts at this way of "seeing" the world and things around us. As we grow older we are trained to see things more verbally and, as a result, our vision of situations has become more narrow. Words are limited after all, but by engaging your group in more visual activities through directed (and non-directed) doodling, a whole new perspective can be gained. The doodlevision games and exercises put fun, creativity and humor into business situations and creates an environment where possibilities that may have previously been unrecognized or unanticipated to come to light.

The President's Daughter, America's first major kiss-and-tell political biography, caused a sensation when it was published in 1928. Nan Britton described her six-year affair with the late Warren G. Harding, most famously including trysts in a White House coat closet. President Harding's paternity of Britton's daughter Elizabeth Ann, born in 1919, was proved by DNA testing in 2015.

Creator of the bestselling The Brick Bible series, master LEGO storyteller Brendan Powell Smith makes history come alive with a fresh new telling of the most fascinating details of our past. Following 2013's Assassination!, Smith's new Revolution! takes readers on a wild ride through events that shaped the world and shows how two revolutions inspired by the highest of ideals—liberty and fair representation—went in such profoundly different directions. While the struggles of the American Revolution forged a nation that became a beacon of hope and democracy to the world, the upheavals of the French Revolution plunged that nation into a nightmare of ghastly terrors that collapsed into despotism. For the first time in LEGO, see the infamous Boston Tea Party, the battles of Lexington and Concord, George Washington's daring crossing of the Delaware, Paul

Revere ' s midnight ride, the drafting of the Declaration of Independence, and more. Across the pond, discover the reign of Louis XVI and Marie Antoinette, the storming of the Bastille, the Women ' s March on Versailles, the Reign of Terror, the guillotining of royalty and traitors alike, and the ultimate rise of Napoleon. With over four hundred highly detailed illustrations, Smith captures the spirit of these American and French revolutionaries, demonstrating the compelling power of this unlikely creative medium. Whether a historian or a LEGO enthusiast, readers of all ages will surely be enthralled with Brendan Powell Smith ' s latest brick creation in The Brick Chronicle series. It ' s history made fun! Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Harness your mind ' s innate tendency to wander, stall, rest, and unfocus and become more productive—in the boardroom, living room, or classroom. Named one of Coastal Living ' s Best Books for the Beach This Summer To finish tasks and achieve goals, most people believe that more focus is the solution. We rely on to-do lists, calendar reminders, noise-blocking headphones, and sometimes medication to help us concentrate—even though these tactics often fail to substantially improve productivity. Drawing on the latest brain research, compelling stories from his psychological practice, and colorful examples of counterintuitive success from sports, business, education, and the arts, neuroscientist Srinivas Pillay, M.D., challenges traditional ideas about productivity, revealing the lasting, positive benefits of adding deliberate and regular unfocus to your repertoire. A fascinating tour through brain wavelengths and rhythm, mindsets, and mental relaxation, Tinker Dabble Doodle Try demonstrates how specific kinds of planned unfocus stimulate cognitive calmness, jumpstart productivity, enhance innovation, inspire creativity, improve long-term memory, and, of course, help you stay on target. Tinkering with ideas and with things releases your mind to wander from a state of stuckness into a possibility frame of mind, triggering neural connections and new insights. Dabbling in a new endeavor—whether a hobby or fantasy—disrupts your habitual and reactive thinking, helping you find new solutions to old problems. Doodling can help you tap into another brain frequency to remove obstacles and create opportunities and inspiration. With techniques for training the brain to unfocus, concepts for scheduling busy lives, and ideas for controlling this new cognitive-toggling capability, Tinker Dabble Doodle Try will change how you think about daydreaming, relaxing, leaving work unfinished, and even multitasking. What you ' ll discover is a greater freedom, a deeper intelligence, and a more profound joy in your life. Praise for Tinker Dabble Doodle Try “ Pillay ' s effortless writing style, combined with an excellent balance of popular psychology and self-help, makes this a helpful read for those who enjoy a light dive into psychology with practical applications. ” —Library Journal “ Pillay cites an intriguing range of brain studies to support his argument, and his case studies of individuals with whom he has worked provide useful insights. ” —Kirkus Reviews “ Dr. Srinivas Pillay offers a brilliant, deeply researched, and even more deeply imagined blueprint for using one ' s full mental armamentarium, conscious, unconscious, and all the undiscovered rest! A fantastic book! ” —Edward M. Hallowell, M.D., co-

The presidential election of 1920 was among history's most dramatic. Six once-and-future presidents-Wilson, Harding, Coolidge, Hoover, and Teddy and Franklin Roosevelt-jockeyed for the White House. With voters choosing between Wilson's League of Nations and Harding's front-porch isolationism, the 1920 election shaped modern America. Women won the vote. Republicans outspent Democrats by 4 to 1, as voters witnessed the first extensive newsreel coverage, modern campaign advertising, and results broadcast on radio. America had become an urban nation: Automobiles, mass production, chain stores, and easy credit transformed the economy. 1920 paints a vivid portrait of America, beset by the Red Scare, jailed dissidents, Prohibition, smoke-filled rooms, bomb-throwing terrorists, and the Klan, gingerly crossing modernity's threshold.
