Sit. Fetch. Have a cappuccino. When Raymond the dog starts acting human, will he miss the dog's life? Raymond the dog is just your regular family pet until, one day, he has a thought: couldn't he just . . . sit at the table? Isn't that what families do together? Soon Raymond begins to leave all his canine ways behind, and so do all the other dogs in town. Dogs go to the movies; dogs go out for coffee; and Raymond lands a high-powered journalism job at DOGUE magazine. But is Raymond's new gig all work and no play? He doesn't even have time for family dinner! Maybe, just maybe, Raymond misses the dog's life. . . . At once comedic and genuine, this tale about appreciating the simpler things in life reminds us all that work can wait -- after all, there are more important things (like getting your ears scratched in just the right place).

Raymond likes to do everything fast—from brushing his teeth to going to school to making new friends. In three easy-to-read stories, readers follow Raymond on a typical super-fast day, see him make a new friend, and run a race!

Raymond and Nelda have always been the very best of friends, and when they have a falling out they are both so miserable that Florence, their mail carrier, helps them get past their pride and hurt feelings to make up.

The Real Beatrice and Raymond The Lycaenidae family of butterflies, sometimes referred to as gossamer-winged butterflies, have a

mutual relationship with ants. While in the caterpillar stage of life, some species secrete a nectar-like substance for the ants to feed upon. In return for this food, the ants provide protection for the caterpillar from larger predators. More information on this family and varying species of this butterfly can be found at butterflywebsite.com. This collection of Raymond Carver's interviews reveals him to have been perhaps the premier short-story writer of his generation, a lyric-narrative poet of singular resonance, and a staunch proponent of realistic fiction in the wake of postmodern formalism. The twenty-five conversations gathered here, several available in English for the first time, include craft interviews, biographical portraits, self-analyses, and wide-ranging reflections on the current literary scene. Carver discusses his changing views of his widely influential fiction collections *What We Talk About When We Talk About Love* (1981), *Cathedral* (1983), and *Where I'm Calling From* (1988). Carver explains how at the height of his fame as a fiction writer he turned to poetry, producing three prize-winning books in as many years. Finally, in the closing months of his life, he talks about the coming of his last triumphant stories, the ones that secured his reputation.

Raymond Williams applied himself to modernism in this, his last major work. He concerns himself with how to get beyond the "new conformism" and develop a cultural politics that goes beyond the "Modern".

L'Amérique que nous avons en tête, Raymond Loewy l'a créée. En soixante-dix ans d'une prodigieuse carrière, ce Français naturalisé Américain, fasciné par la vitesse et inventeur du design industriel, a fait jaillir de son crayon la plupart des objets mythiques du Nouveau Monde : les cars Greyhound, les camions distributeurs de Coca-Cola, les sigles BP, Shell, Newman, le paquet de cigarette Lucky Strike, les carrosseries de Studebaker, des locomotives à nez d'obus... Pourtant, grisé par son succès, l'auteur du best-seller *La Laideur* se vend mal, se laissera prendre à son art de l'artifice. Il se " désigna " une légende. Alors pour rendre justice au talent comme à la vérité, Philippe Trétiack exhume du sublime emballage signé Loewy la réalité captivante et cachée d'un personnage à la taille du siècle.

Life of Saint Raymond with biography, genealogy relationships to other saints.

Along with Dashiell Hammett, Raymond Chandler invented the modern detective novel. He was a master of the "wise-crack" and the foremost exponent of the tough-guy school of writing. Raymond was also a writer of distinction in a field where quality was not expected. Dismissed for his unpredictable drinking habits, the mad who revealed California's seamy side in novels such as *The Big Sleep*, *The Long Goodbye*, and *Farewell, My Lovely* did not turn to fiction until the age of 44. He began with the pulps, and five years later tried his hand at novels. Within a few years the hero of his books, Philip Marlowe, had won a passionate international following [as] the tough but sentimental private eye. [...] As Frank MacShane's entertaining biography shows, Raymond Chandler was the genuine article: a serious novelist who touched millions of readers. Drawing extensively on conversations with surviving members of the Chandler circle, [...] and from exclusive access to private correspondence and unpublished papers, Mr. MacShane's book is the first study of the life and times of this lively and influential literary figure. --From dust jacket.
