The president made a very nice speech at the United Nations, but it won't matter much unless his words are backed by a credible threat of force. There's little evidence that almost a decade of ...

(Berklee Guide). Make advanced guitar harmonies more intuitive and effective. This inventive approach to imagining and organizing notes will expand your concept of guitar harmony. You will be able to organize and use tensions more easily and with greater expression, whether you are soloing, playing in a rhythm section, or in a solo guitar context. Practical etudes over popular chord changes will help you to understand and apply these new theoretical concepts. The accompanying recording includes examples and play-along tracks, featuring innovative guitarists Mick Goodrick and Tim Miller, along with an all-star rhythm section featuring Terri Lyne Carrington on drums and John Lockwood on bass. You will learn to: develop and apply new chord voicings, using a rich palette of notes; isolate and organize the most essential notes of any chord-scale (Generic Modality Compression); view chord scales as five families of 3-note chords: triads, sus4, clusters, 7th no 3, and 7th no 5), to be used systematically and simultaneously; leverage this chord-scale organization to lead you to inventive harmonies; incorporate tensions more intuitively into your comping and lead lines; and use new arpeggio patterns in linear improvisation.

(Guitar Recorded Versions). 18 of the most memorable songs from Pink Floyd's career in note-for-note guitar transcriptions in notes and tablature, including: Another Brick in the Wall, Part 2 * Astronomy Domine * Brain Damage * Breathe * Comfortably Numb * Have a Cigar * Hey You * Keep Talking * Learning to Fly * Money * On the Turning Away * Pigs (Three Different Ones) * Run like Hell * Shine on You Crazy Diamond (Parts 1-5) * Time * What Do You Want from Me * Wish You Were Here * Young Lust * and more.

(Guitar Recorded Versions). 17 classics from Petty's vast repertoire, newly transcribed with tab: American Girl * Breakdown * Don't Come Around Here No More * Don't Do Me like That * Even the Losers * A Face in the Crowd * Free Fallin' * Here Comes My Girl * I Need to Know * I Won't Back Down * Into the Great Wide Open * Learning to Fly * Listen to Her Heart * Mary Jane's Last Dance * Refugee * Runnin' Down a Dream * Stop Draggin' My Heart Around.

(Guitar Recorded Versions). 25 authentic transcriptions with notes and tablature from the extensive career of these British metal masters that first came onto the scene in 1975. Songs: Aces High * Blood Brothers * Can I Play with Madness * Caught Somewhere in Time * Children of the Damned * Dance of Death * Fear of the Dark * Hallowed Be Thy Name * Iron Maiden * The Number of the Beast * The Phantom of the Opera * Powerslave * The Prisoner * Run to the Hills * Running Free * Seventh Son of a Seventh Son * Stranger in a Strange Land * The Trooper * 22, Acacia Ave. * Two Minutes to Midnight * Wasted Years * Wasting Love * Where Eagles Dare * Wicker Man * Wrathchild.

Richie Kotzen of Poison shows you hi-tech rock techniques such as: shapes and sequences for melodic legato playing, inventive ways to combine string skipping and right-hand tapping to create mind-boggling sounds, plus scales, sweeping techniques and more! With up-close camera shots and a booklet in music and tab. (60 min.)

"3 Shape Fretboard by Gareth Evans is a thorough workbook for learning to understand and play scales on the guitar. The sheer number of different scales and modes may seem overwhelming, but the knowledge of the three basic shapes and a basic understanding of intervals will help a lot in seeing through the jungle. A tour de force of fretboard and scale knowledge" -- Mathias Lang, Guitar Teacher & Composer (Netherlands) 3-Shape Fretboard is for intermediate to advanced guitarists interested in learning how to work out guitar scales and arpeggios for themselves. Being able to create guitar scales and arpeggios yourself can give a better understanding, while knowing the logic behind them can make them more meaningful and therefore easier to learn. The Major Scale: It all starts with the major scale, the basis of music. All other scales and arpeggios can be defined in comparison to this scale. The book reflects this in practical terms by categorising the major scale into three different fundamental shapes, which once understood, can be used as templates to figure out other guitar scales and arpeggios. The CAGED System: This system can help to understand the larger CAGED guitar scale shapes in terms of their single octave components. For example, the five CAGED shapes for the major (or minor) pentatonic scales that each contain twelve notes, can be learned as only two shapes of five notes, which are joined end to end to give us the five full CAGED shapes. What Else? >> Various 3-Note per string scales can be understood as the same combination of single octave component types. >> See how basic major and minor chords are formed from within scales and look at triad and 7th chord based harmony. >> Each scale and arpeggio type has a question, with the answer at the back of the book in guitar tablature. >> 3-Shape Fretboard contains 600 fretboard diagrams. >> Intervals are grouped together in the context of the scales they are intended for, which can provide a foundation for learning intervals individually on the fretboard. Please Note: The eBook includes diagrams not suitable for smaller screens. "A logical and thorough approach to understanding scales, intervals and arpeggios on the guitar. All related to the universal CAGED idea of fretboard layout. Plenty to study and apply to your playing." -- Hedley Timbs, BA(Mus), Grad.Dip. Teaching (New Zealand) "I think the 3 pattern approach is very interesting and well documented. There is lots of good material and I like the approach. Very well organised, complete and clear with plenty of diagrams." -- Fabien Aubry, Composer, Arranger & Producer (Switzerland)

Transcriptions of the guitar parts of heavy metal music with the vocal part.

(Guitar Recorded Versions). This updated edition features 30 of Van Halen's most memorable hits in note-for-note transcriptions with guitar tab. The critically acclaimed show, Californication, is one of Showtime's highest rated programs. Averaging about two million viewers an episode, it is the most successfully rated freshman series in Showtime history. A Golden Globe nominee for Best Television Series (Comedy or Musical), Californication features an electric, likeable cast, led by actor David Duchovny, who won a Golden Globe for his performance playing Hank Moody. God Hates Us All is the novel written by Duchovny's character, Hank Moody, which in the show is turned into a Hollywood film entitled A Crazy Little Thing Called Love. Timed to coincide with the premiere of the Season 3 of the hit series, this will allow fans an extra, backstage look at the concept of the show not available through episodes.
