With fuel costs and parking charges it's no wonder the consumer is looking for less expensive forms of travel. This book is aimed at the rider who wants to do his or her own basic scooter maintenance and servicing without the need for in-depth mechanical knowledge, or a technical manual. It covers areas such as oil, brakes, tyres, transmission, electrics, etc, allowing the owner to address the most regularly serviced items without forking out for additional costs. Illustrated with full colour photographs throughout, and featuring clear, easy-to-follow instructions, this book is a must-have for scooter users.

potential for devastation on an unprecedented and unimaginable scale. In this book, Sidney D. Drell and James E. Goodby—each with more than twenty years' experience in national security issues both in public and private capacities—review the main policy issues surrounding nonproliferation of nuclear weapons. They address the specific actions that the community of nations—with American leadership—should take to confront and turn back the nuclear danger that imperils humanity. The nuclear genie, say the authors, cannot be put back in the bottle. Our most urgent task as a nation today is to successfully manage, contain, and reduce the grave danger of nuclear weapons—whether in the hands of adversaries or friendly states. This book hopes to stimulate active public dialogue on this important subject.

Althea Farraday is a thirty-eight-year-old divorced mother of three who's got a teenage son who's a Buddhist, a hypercritical sister who knows how to push all her buttons, a job on the endangered species list, and a love life to match. Just as she's settling in to a comfortable level of chaos, a near-perfect man enters her life. Equipped to steal her heart and help turn her passion for designing gardens into a new career, Patrick Donahugh may be too good to be true. Amid wild roses, California poppies, scarlet flax, sweet rocket, love-in-mist, and, of course, plenty of dirt, *Wild Designs* is a refreshingly honest and funny read that celebrates the almost-ready-to-bloom aspect of all our lives.
